RULEBOOK

4.1.2 RALLY

Rally /recover from Disorder) is not possible if the Unit/Group is in melee. Note that a Group can be splitted before the activation, so a part of the Group not in contact with an enemy Unit can rally.

Pilum and PBW can be used as shooting weapons only once per game, at the very first contact (melee or dispersion) with the enemy.

The bonus in melee (+1d6 but only at the first round of each melee) is applied until the Unit is Exhausted.

7.3 LARGE UNITS DEPTH BONUS *Clarification*

A Unit of FP with Long Spear that is also Impetuous add both bonus (for a total of +2 against Foot and + 3 against Mounted)

CLARIFICATIONS

Up 1/C : up to 1 for each Command

You can field such a troop type no more than one per command. That troop must also stay in its Command. If you have 4 Commands these Units will stay each in their Command and will not be combined together in the same Command. In most lists it appears as an upgrade of a previous line of the same type. In a few cases it is independent and will allow to field one unit per command, up to a maximum of 4.

Example 1 (same type previous line) -

0-2 Carthage Vet Cav CM 5

up 1/C Carthage Vet Cav CM 6

A maximum of 2 Veteran Cavalry that can be upgraded to VBU 6

Example 2 (Independent line - no compatible previous line) -

0-2 Scouts CL 3 1 B 1 Javelin

up 1/C Soldurii Elite FP 6 4 C 3/1 Impetuous

A maximum of 4 soldurii can be used (provided there are 4 commands)
